

**Amendments to the Specification:**

Please replace paragraph [0042] with the following amended paragraph:

The first guide means 12 may be positioned as shown in a fixed location, or it may be located in an optional oval opening designated in phantom ~~at 102~~ at 12'. By utilizing an oval hole, the line may be threaded either over or under the first guide means. This provides for additional flexibility when utilizing the system. The threadable line 3 may be threaded over or under the first anchor line attachment means (described further below) depending on its orientation over or under the first guide means 12.
